

The Top 5 Reasons for Choosing OneSite®

The best option for driving productivity and profitability.

OneSite Leasing & Rents helps streamline and automate day-to-day operations for residential property managers. There are so many reasons to adopt OneSite—here are the top five:

1. Customisable in-system policies help reduce risk and protect yield by enforcing company policies across your entire portfolio with company-defined business models and the ability to push company policies to your sites.
2. OneSite is the industry's easiest property management solution to learn and use. Even better, our EasyLMS® enables your teams to deliver, manage, track and report on employee learning and engagement while helping you retain top talent and improve performance.
3. OneSite offers an extensive library of hundreds of reports, giving you the visibility you need to run your property. And, you'll get it all without having to customise.
4. OneSite is part of a platform of fully integrated solutions providing virtual access from anywhere at any time—all under a single login.
5. OneSite is part of one of the largest SaaS data centers in the world with full redundancy and 24/7 monitoring. We host and maintain a single code source, so your data is protected.
